Peer Evaluation

Pawan Kumar Singh

Roll No: 123050074

1 Work done in current Week

In this week I have learnt Cascading Style Sheet (CSS) which allow me to give style to each and every element of HTML. So I may define a property for that particular element without affecting other elements. It also helps to present webpages in different styles having the same logic.

2 Further Plans for next Week

I have to learn Javascript and then finally PHP implementation. Along with PHP I also want to learn Django which is a further step to work on peer evaluation model.

3 Reviewers suggestion in Meeting

1: Try Django also.
2: Make a simple presentation on PHP and see how things works.
